Participant Feedback

LEARN 2 CARE FOUNDATIONS

“Imagine the depth of connection we could truly have with all of the people in our lives if we just did a little to acknowledge and honor the differences in our stories, recognizing each other as beautiful stitches in the intricate tapestry of humanity. The first step towards that goal can begin in this coursework. Simple, yet so impactful for anyone who is willing to just start.”

-High School social studies teacher, Florida

LEARN 2 CARE LEADERSHIP

“The [virtual simulation] experience provided an opportunity for self-reflection and understanding in a most authentic way. It allowed for the real challenge I need to grow both professionally and personally while providing space for meaningful dialogue with colleagues that further enhanced my learning. The CARE experience is nothing short of amazing and I consider it one of the most powerful learning experiences of my educational career.”
